

.Net Services

.Net Migration and Development Services

Imex Systems Inc. has extensive experience on Microsoft .NET technology and has helped clients to migrate their legacy applications to .Net platform.

Our comprehensive .NET migration solutions include:

- ASP to ASP.NET
- VB to VB.NET
- PHP to ASP.NET
- Centura to .NET
- Java/JSP to .NET
- Mainframe/AS400/Oracle applications to .NET

Our migration process and methodology with optional re-engineering allows our customers to take full advantage of .NET platforms through migrated applications.

.Net Application Development and Maintenance

We have developed .Net certified products and have completed several critical applications on the .NET platform.

Our .Net application services include analysis, design, architecture, development, testing, deployment, documentation, training and maintenance.
