Bill and Invoice Presentment and Payment Solution

iDocs is a web-based solution for businesses to leverage the communication powers of the internet to reduce costs and improve cash flow, increase operational efficiency and enhance customer relationships.

This comprehensive solution enables organizations to electronically present their statements, bills or invoices and receive payments through their website, twenty-four hours per day, seven days a week.

The system effortlessly handles simple bills and statements to large complex business-to-business statements and invoices of multiple types securely and conveniently.

The iDocs product:

- Supports all major credit cards, debit cards (Interac) and bank cards from pre-authorized account debits
- Supports user definable workflow for invoice processing
- Is one of the most cost effective systems on the market today
- Is implemented quickly without a large upfront investment
- Is extremely user-friendly and provides extensive administrative audit functions
- Offers detailed reporting functionality
- Is based on state-of-the-art web technology

The iDocs suite includes: Electronic Billing & Payment Processing (EBPP), Electronic Invoice Presentment & Payment (EIPP) and Electronic Statements Presentment (ESP).

iDocs is available through a choice of purchasing options including licensing or the use of our hosted ASP solution.

iDocs-EBPP system has an optional **ePost** module allowing bills to be presented through ePost to provide additional convenience for your customers.
