

iLearn

e-Learning Solutions

Supporting the need for fresh new approaches to education and training, iLearn, the e-Learning system from Imex Systems Inc. provides a unique and economical solution to develop, deliver, manage, measure, and improve e-Learning activities.

iLearn is designed to be flexible and meet changing requirements, is scalable so additional users are easily incorporated and robust enough to cope with day-to-day demands. iLearn is standards compliant to ensure portability of its learning modules.

iLearn has the potential to positively impact an organization's fundamental skill development and management objectives. We have combined years of experience as consultants for government and private institutions with expertise in the latest technologies to identify and mitigate risks and provide the e-Learning system that best meets your objectives.

iLearn offers students:

- Online enrollment and payment
- 24x7 access
- A self-paced learning environment
- Powerful search engine
- Whiteboard feature for real time interaction with instructor and classmates.
- Built-in calendars and the ability to view those of class and group mates
- myCourses dashboard for information of current and past courses
