

## **Imex Systems to showcase Automated Forms Migration Products and Solutions for Oracle Forms 10g and Oracle ADF at Oracle OpenWorld**

**Mississauga, ON – October 26, 2007** – Imex Systems Inc, today announced plans to participate in the Oracle OpenWorld 2007. The annual event is hosted by Oracle, and will be held in San Francisco November 11<sup>th</sup> through 15<sup>th</sup> at the Moscone Center.

Imex Systems develops and markets ORMIT Suite of Migration tools.

**ORMIT-Forms (10g):** the renowned Forms upgrade tool that enables customers to perform upgrade of their Oracle Forms & Reports from any previous version (2.3, 3.0, 4.5, 6.x) to 10g.

**ORMIT-Java/ADF:** provides a simple option for users to migrate their Forms based application to the Oracle ADF Java environment, while following standards and pursuing best practices.

“Now available as licensed products, the ORMIT migration tools significantly improve developer productivity resulting in substantial savings in the cost and time. The ORMIT tools are available for purchase for in-house migrations, geared towards self-sufficiency and no long-term dependencies on the tool or any external body” states Rohit Bhalla, Director, Oracle Competency Group, Imex Systems.

“Exhibiting at Oracle OpenWorld will allow us to showcase the ease of upgrading Forms & Reports to 10g, as well as migrating legacy forms to the **Oracle ADF** Java environment with ORMIT. In our booth we will offer attendees a chance to test drive the product and experience first hand why ORMIT is the tool of choice for Oracle Forms & Reports developers”.

Imex Systems is an exhibitor at Oracle OpenWorld and will offer attendees a variety of activities including informative presentations on Forms Upgrades and migrations using the ORMIT automated migration tools. Imex will also be conducting live demos and sharing information on technologies and options around upgrades and migrations as well as discussions around related skills transition.
